Course Description

In this course we will survey the development of western Society from the eighteenth century Enlightenment to the contemporary world (including the collapse of the Soviet Union). This story includes lots of facts, people, places, events and dates. What we want to do is to consider how these pieces fit together: why did things happen; how did events connect - analyze and interpret events. So we are going to look at some of the bigger history stories, the broad themes of intellectual-cultural, political-diplomatic, and social-economic history. .

Learning objectives and outcomes

To enable students to learn how the broad historical narrative is constructed from the interplay of events, ideas, discoveries, inventions, etc., we will work with selected primary and secondary source documents. For each source reading, students must prepare a guided written response focusing on interpretation, comparison and context for that material. These responses serve as the basis for class discussion in which, students must present their arguments, evidence and assumptions about the assigned readings. Through discussion, preparation (and submission) of responses and two short independent papers, students will develop/expand critical analytic and writing skills. Today is the accumulation of everything that has gone before, and tomorrow will be the result of that accumulation. By understanding our past stories we hope to understand the values and institutions that have shaped Western Civilization and better manage its future.

Expectations

Attendance: class discussion is an essential part of interpreting our course materials, and everyone's input is important, so attendance is required. We have only **28** scheduled class meetings, therefore I will start taking one point off your grade for each absence after the **4th unexcused absence**. Note: any student who misses eight or more sessions through any combination of excused and unexcused absences will not earn credit in this class. Such students should withdraw to avoid getting an F. You can always reach me by e-mail in unexpected cases of emergency.

Papers & tests: You are responsible for getting all assignments and submitting all work on the due date **whether or not you are in class** when the assignment was announced and **whether or not you are in class** when the assignment is due. Work can be e-mailed to me or left in my department. All assignments and materials are posted on **Blackboard** and listed on the syllabus schedule. You are responsible for checking **Blackboard** for materials and for announcements about assignments and tests.

If you are having difficulty getting access to Blackboard check with the help desk at the computer Center, 3rd floor, Englehart Hall (973)353-5083 M-F

Respect: we each bring important resources and experiences into the class. As we each want our own

ideas to be heard and respected, so, too, we must be willing to listen to others.

This is the basis for classroom manners. Cell phones, beepers, distracting activities all interfere in learning. Please honor your fellow students' interests and your own commitment to college work.

Plagiarism: each of you has committed to college with money and time in order to develop your own understanding and ability. Any time you plagiarize and claim somebody else's work as your own, no matter how small the part, you've wasted some of your money and lost an opportunity for your own growth. You insult you own potential, you insult me, you insult your fellow students and their honest efforts. To be sure everyone is clear about exactly what plagiarism includes, the history department REQUIRES that the following honor pledge is written and signed on examinations and major course assignments submitted for grading: "*On my honor, I have neither received nor given any unauthorized assistance on this examination (assignment).*"

Grading evaluation

Grades will be based on the number of points accumulated in a series of announced and unannounced quizzes, mid-term and final exams, two written projects- a museum project and a book report, and submission of reading responses*. Points are posted on Blackboard's gradebook as activities are graded, so students can track their academic status. Students are encouraged to regularly check their gradebook scores to ensure that entries are accurate and complete.

Because the exams will include assigned readings as well as information presented in class, regular class attendance is essential in order to have all the necessary material.

Your final grade will be based on the total number of points you accumulate on a series of exams and exercises.

...

Mid-term exam	15 possible points	25%
Final Exam	15 possible points	25%
quizzes @4 or 6 points each	24 possible points	35%
written project	4 possible points	5%
museum project	4 possible points	5%
reading responses	5-6 possible points	<u>5%</u>
	68 total possible points	100%

*Reading responses: The reading responses are to provide guidance for the document and source course readings. I expect you to fill them out and submit them and they will be logged in and posted in your cumulative grade record on Blackboard. You will not receive grade points for the responses, but at the end of the semester I will add points relative to the number of completed responses. It will help you to complete the reading responses as we cover the materials in class. Because they are intended as a study guide, I will generally collect responses only at the time of the quizzes and exams to which the particular responses apply. Responses completed after the relevant quizzes and exams will not be acknowledged.

Accommodations for Students with Disabilities:

Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: <https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at: <https://ods.rutgers.edu/students/registration-form>. For more information please contact Kate Torres at (973) 353-5375 or in the Office of Disability Services in the Paul Robeson Campus Center, in suite 219 or by contacting odsnewark@rutgers.edu.
